

FOSINT COURSE

PREMIUM V2 • Full OSINT, Forensic & Investigation Masterclass

Section 1: Introduction Our Course

What is this: Premium guided module covering introduction our course with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 2: What Is Cyber Law in India

What is this: Premium guided module covering what is cyber law in india with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 3: All Cyber Scam Explained

What is this: Premium guided module covering all cyber scam explained with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 4: Find Info Using Email & Phone

What is this: Premium guided module covering find info using email & phone with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 5: How To Find Details Using Username

What is this: Premium guided module covering how to find details using username with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 6: Find Your Home Address Using Email

What is this: Premium guided module covering find your home address using email with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 7: Find Real Name Using UPI

What is this: Premium guided module covering find real name using upi with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 8: Find Sim Owner Name Using Phone Number (80% True)

What is this: Premium guided module covering find sim owner name using phone number (80% true) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 9: Find Sim Owner Name Using Phone Number (98% True)

What is this: Premium guided module covering find sim owner name using phone number (98% true) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 10: How To Find International Number Details

What is this: Premium guided module covering how to find international number details with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 11: How To Find Vehicle Owner Details-2

What is this: Premium guided module covering how to find vehicle owner details-2 with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 12: Find Owner Details Using Vehicle Number-

What is this: Premium guided module covering find owner details using vehicle number- with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 13: Collect Data From Leak Websites

What is this: Premium guided module covering collect data from leak websites with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 14: All Leaked Database Details In 1 Platform

What is this: Premium guided module covering all leaked database details in 1 platform with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 15: Collect Criminal IP Information

What is this: Premium guided module covering collect criminal ip information with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 16: How To Capture Scammer IP

What is this: Premium guided module covering how to capture scammer ip with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 17: How To Manuplate Scammers

What is this: Premium guided module covering how to manuplate scammers with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 18: How To Find GPS Location Using Link

What is this: Premium guided module covering how to find gps location using link with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 19: Complete WhatsApp Forensic From Device

What is this: Premium guided module covering complete whatsapp forensic from device with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 20: Complete WhatsApp Forensic From GDrive

What is this: Premium guided module covering complete whatsapp forensic from gdrive with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 21: Complete Forensic Windows Machine

What is this: Premium guided module covering complete forensic windows machine with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 22: Extract All System Logs(Windows)

What is this: Premium guided module covering extract all system logs(windows) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 23: Extract All WiFi History(Windows)

What is this: Premium guided module covering extract all wifi history(windows) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 24: Collect Chrome Logs After Deleted

What is this: Premium guided module covering collect chrome logs after deleted with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 25: Recover Deleted Data From Windows

What is this: Premium guided module covering recover deleted data from windows with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 26: Reset Windows Password Without Data Lose

What is this: Premium guided module covering reset windows password without data lose with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 27: How To Surveillance Windows

What is this: Premium guided module covering how to surveillance windows with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 28: Recover Data From Lock Android Phone

What is this: Premium guided module covering recover data from lock android phone with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 29: Extract Hidden Google Map Data From Device

What is this: Premium guided module covering extract hidden google map data from device with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 30: Extract Deleted Call History Easily

What is this: Premium guided module covering extract deleted call history easily with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 31: How To Surveillance Android Phone

What is this: Premium guided module covering how to surveillance android phone with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 32: Forensic Android Malware C2 Server

What is this: Premium guided module covering forensic android malware c2 server with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 33: How To Make Deepfake Videos

What is this: Premium guided module covering how to make deepfake videos with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 34: How To Detect Deepfake Videos (95% True)

What is this: Premium guided module covering how to detect deepfake videos (95% true) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 35: How To Find Information Image File

What is this: Premium guided module covering how to find information image file with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 36: How Collect Info Using Face Image

What is this: Premium guided module covering how collect info using face image with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 37: How To Surveillance Website

What is this: Premium guided module covering how to surveillance website with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 38: How To Track & Logs Crypto Coins

What is this: Premium guided module covering how to track & logs crypto coins with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 39: Find Nearby Telegram Users & Groups

What is this: Premium guided module covering find nearby telegram users & groups with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 40: Find Telegram Account Created Date

What is this: Premium guided module covering find telegram account created date with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 41: Telegram User OSINT(Find Group, Number, Message)

What is this: Premium guided module covering telegram user osint(find group, number, message) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 42: How To Know Which Groups Have Joined

What is this: Premium guided module covering how to know which groups have joined with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 43: How To Create Own OSINT Website & Platform(Included Code)

What is this: Premium guided module covering how to create own osint website & platform(included code) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 44: How to Create Telegram OSINT Bot No Database Need(CODE INCLUDED)

What is this: Premium guided module covering how to create telegram osint bot no database need(code included) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 45: Find Leak Data Using Email (Free)

What is this: Premium guided module covering find leak data using email (free) with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 46: Crack Leak Hash Password Using Hashcat

What is this: Premium guided module covering crack leak hash password using hashcat with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 47: Complete Expose Leaked Data In Plan Text

What is this: Premium guided module covering complete expose leaked data in plan text with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 48: Phone Number Osint Telegram Bot 2026

What is this: Premium guided module covering phone number osint telegram bot 2026 with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 49: Phone Number Osint Telegram Bot 2

What is this: Premium guided module covering phone number osint telegram bot 2 with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 50: New Telegram Bot For Leaked Database 2026

What is this: Premium guided module covering new telegram bot for leaked database 2026 with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 51: How To Doing Cyber Report

What is this: Premium guided module covering how to doing cyber report with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 52: How To Write WhatsApp Number Report

What is this: Premium guided module covering how to write whatsapp number report with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 53: How To Do YouTube Report

What is this: Premium guided module covering how to do youtube report with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 54: How To Do Instagram Report

What is this: Premium guided module covering how to do instagram report with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 55: How To Become Cyber Volunteer

What is this: Premium guided module covering how to become cyber volunteer with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods

Section 56: Thanks Note

What is this: Premium guided module covering thanks note with practical workflow and investigation methods.

How it works: Step-by-step real case style explanation, platform usage, tracing logic, evidence collection, and data verification process.

Tools Covered: OSINT Platforms, Investigation Utilities, Browser Tools, Telegram Bots, Forensic Methods
